# *WATER NEST*

by Giancarlo Design Group

"WaterNest 100 is the ideal solution for those wishing to live independently, exclusively and in complete harmony with nature."

- Giancarlo Design Group

Waternest takes nature integrated living to a new level by actually enabling the inhabitant to live on the water completely secluded from the rest of the world. Whilst offering a very eco-friendly living solution it is also designed to not just integrate nature but to actually fit into nature seamlessly.
